

## 1. INTRODUCTION

### 1.1 Overview

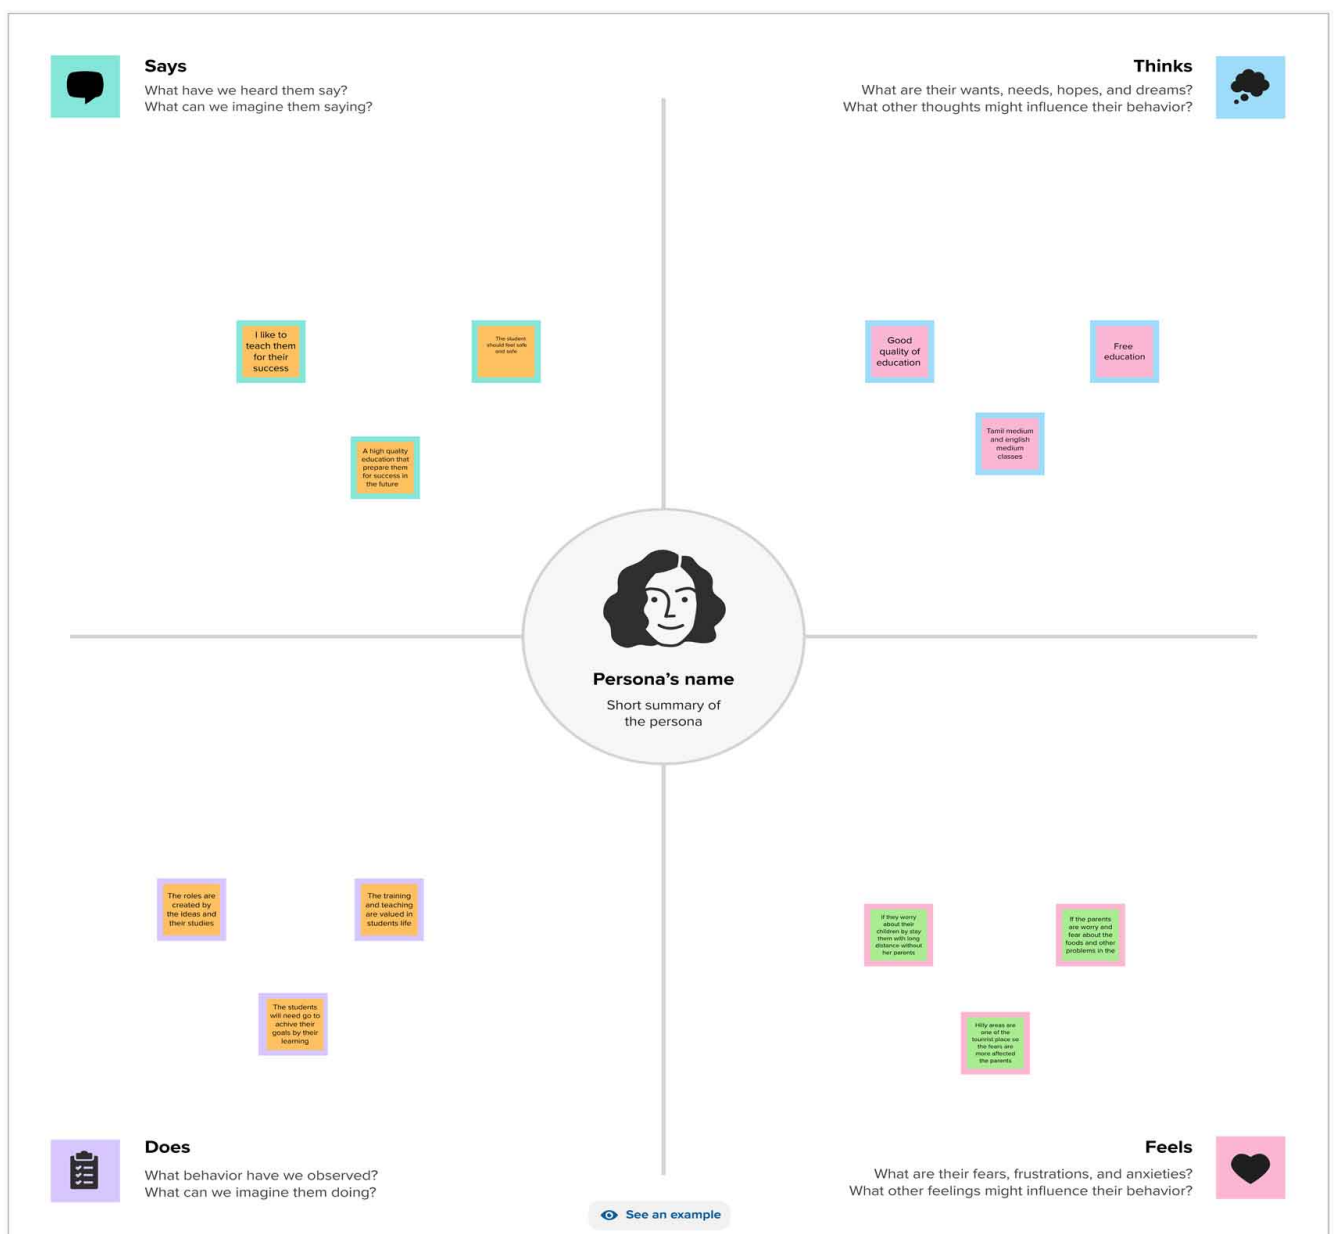

The project cover using by Zoho books. The main aim of education is that the people each and every one will get the education. Those people can't make any things about the education which means we provide many things for their education.

### 2.1 purpose

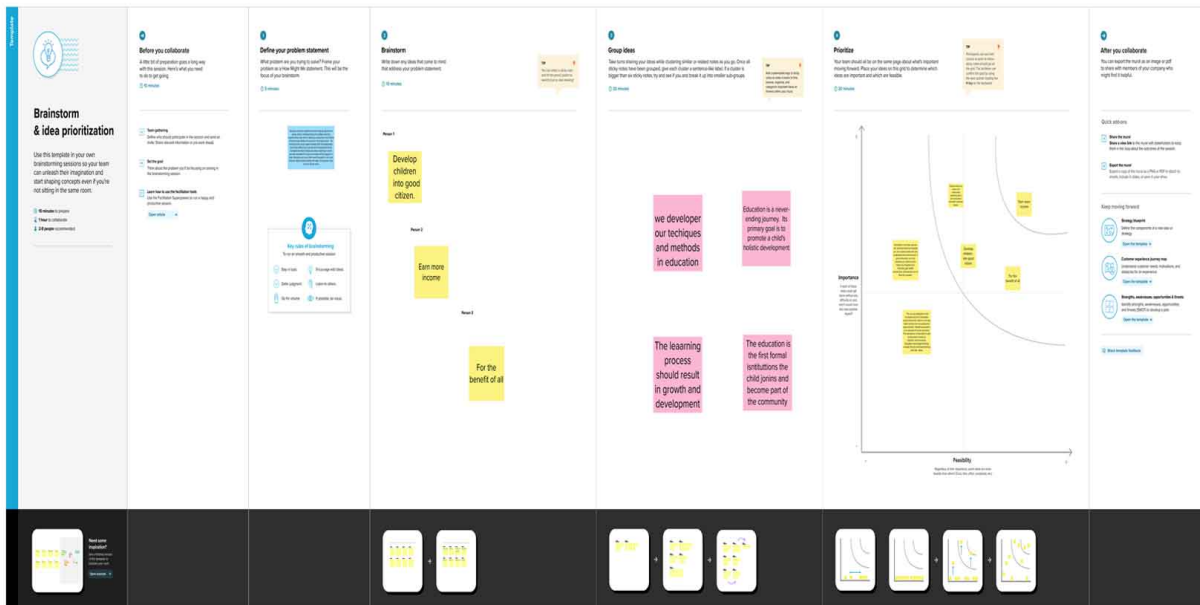

- If this project is help us in future because we will easy to tally our account.
- That takes care of the accounting needs of your business.
- Today we will learn by yours books future we will execute by our self by yours training.

## 2.PROBLEM DEFINITION AND DESIGN THINKING

### 2.1 Empathy Map

### 2.2 Brainstorming map and Ideation

### 3.Result

Hereby I concluded that our project education has created a grate impact among the people who came to study the big opportunity and trusted us that we will be dealing them in the good manner.

### 4. ADVANTAGE AND DISADVANTAGE

#### Advantage

- In one's life, education is an important concern. It is the key to a successful future and to the numerous opportunities we come across in our lives.
- If the zoho book is easy to create the tally for the account. It's one of easy to handle if the fresher also easy to handle.
- If the time is very fast to finest the project but it is correct time to give us the training in next year so many are went to job so it is very use full to them and us.

#### Disadvantage

If in your book we will disappoint by your time keeping which means the days will long but the time is so short for us.

### 5. Application

- If the zoho used to design for accounting to easy and quickly to solve any problems in any time.
- If it is design to show the profit and loss in the purchase and sales of the company accounting.
- If the zoho will include purchase, sales, balance sheet, invoice, expenses, customers etc.

### 6. Conclusion

In this project I learnt to create proper methods of accounting.
